The story of

Critical Care's Restoration Rainbow

Hayley Knowles – Quality Improvement Lead

Kim Gill – Education Lead

Kerry Wright – Quality Improvement Lead

Sarah Dow – Governance Lead

Adult
Critical Care

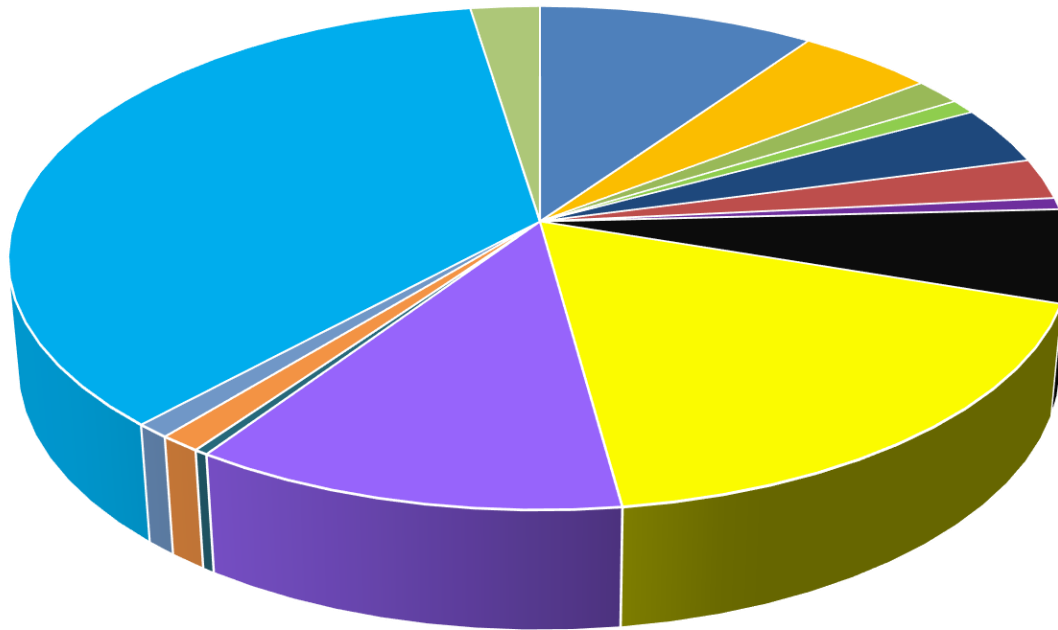

Where it all began....

“If there ever was a time to do things differently then this is that time”

The Data

- Access, Admission, Discharge and Transfer issue
- Aggression, Violence and Harassment
- Blood Transfusion
- Contact with / Exposure to Harmful Agent, Substance or Object
- Delay / failure to treatment or procedure
- Documentation and Health Records
- Fall
- Medical Devices
- Medication
- Nutrition
- Safeguarding Vulnerable People

The Initial Proposal...

With the Band 7s

Is the Rainbow a responsive approach to address the challenges we face in the clinical areas?

The proposed designs..

The final version...

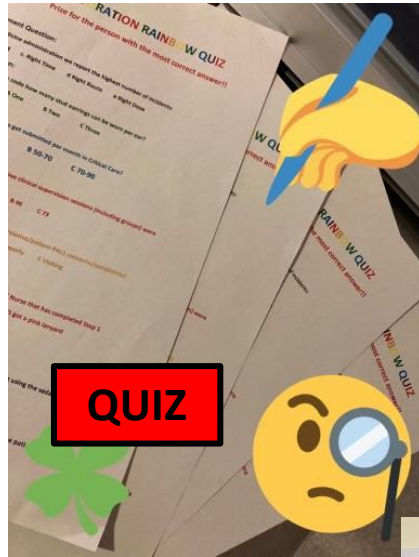

Band 6 MasterClasses

- 6 masterclasses, 8-15 participants, representatives from each area
- **Main goal**
 - present the rainbow
 - introduce the concept of resetting standards
 - provide the team with tools
 - empower them to be the best leaders they can be

What does the data show

Was the Rainbow a success?

Was the Rainbow a Success?

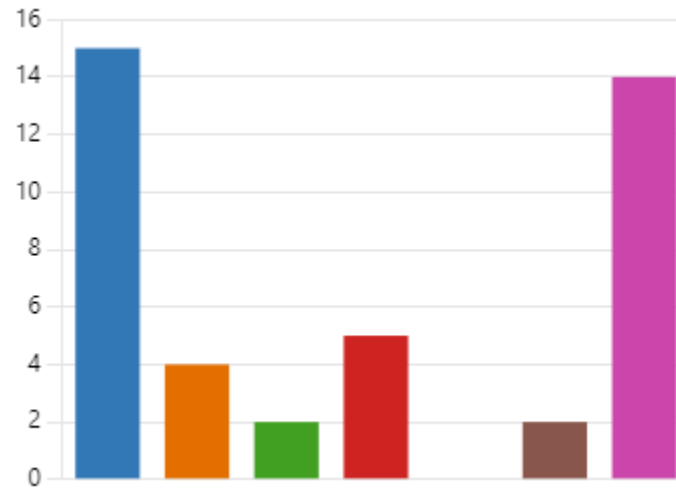

- Raised awareness. Reporting Processes improved
- Learnt loads
- People listened and got involved
- Bought attention to topics in order to change trajectory
- Highlighted issues
- Snapshot, quick impact teaching
- Great success
- Gave opportunity for staff discussion
- Fun and Memorable
- Sweets!!
- Help me to gain knowledge
- Made people think
- Gave team a positive focus
- Should be an annual event!

Which focus stood out?

● Medicines Management	15
● Infection Prevention and Control	4
● Tissue Viability	2
● Wellbeing	5
● Leadership	0
● Education	2
● Rehab and Delerium	14

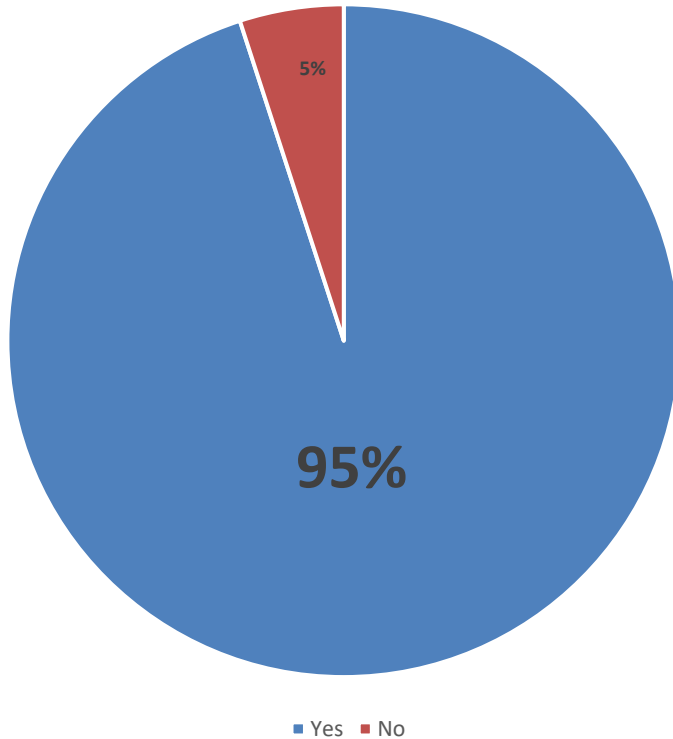

What strategies do you remember being used?

- Boards being wheeled around
- QR Codes
- Wordsearches and quizzes
- Bedside teaching
- Posters
- Murials and time-out
- Questionnaires
- Emails with links
- 14 day handovers

Would you like to see a similar initiative again?

What, if anything, could we do differently?

- Hire a team to deliver it
- More interaction
- Nothing
- More Q&As with gifts/prizes
- Night Shift training
- Equal focus on all points
- More MDT involvement
- More Link Team involvement
- Access to resources after the initiative e.g videos
- Carry on the good work
- Move away from the bedside

Our Team reflection

- Overall a really good initiative
- Much needed and clear positive impact
- Very long and labour intensive
- Challenging to facilitate with other commitments
- Fun way to share learning and hit the reset button on standards
