

**BACCN Conference 2024 Grant Report**  
**Lucy McAneny**

The highlights of the conference for me personally were two of the guest speakers from day one. Professor Aisha Holloway was an outstanding keynote speaker, sharing her passion and experiences was a privilege to hear as well as her outlook for the future. The other speaker and author Sarah Digregorio was excellent, it was food for thought. I think every person in that conference room would agree with me and if they haven't already read it, i am in no doubt it will have been added to their reading list.

Thank you again for the opportunity to attend I thoroughly enjoyed it and look forward to Blackpool next year.
